

Retort applications

The safe and efficient packaging!

- Maximisation of the shelf life while retaining nutritional value, taste, aroma and flavour
- Established portfolio of standardised laminates
- Fast and reliable sealing
- Resilient packaging solutions for a wide range of products

Thanks to decades of experience in the flexible packaging market the adapa Group strives to provide packaging solutions even for the most **demanding applications**.

Our retort films are optimised to withstand acidic substances, heat, pressure and run well on a variety of packaging machines. Having accompanied various products we know what it takes to provide a long shelf life or which substances need to be handled with care. Last but not least we would like to highlight our experienced printers – they turn impressive designs into reality to make sure your goods **stand out at the point of sale**.
