

FlexiClose^{re} AMX

Our PO based reclosable lid film!

- Designed for recycling
- For mono APET trays
- Ideal for user-friendly packaging
- Good printability
- With high barrier

Convenience in packaging is becoming increasingly important to consumers. With our PO-based reclosable top webs, you can respond to this in the very best way! Our FlexiClose^{re} AMX combines the key benefits of traysealer MAP packaging without any adverse effects for manufacturers, retailers or consumers: maximum product protection thanks to a high barrier and reliable sealing as well as high transparency make for efficient and attractive packaging.

The reliable reclosure effectively prevents food waste and, in combination with a mono APET- bottom tray a packaging solution designed for recycling is created.

Converting

- Printable with up to 10 colours with reverse or surface options
