

MonoClose^{re} P-type

Our PP based reclosable lid film!

- For PP trays
- Ideal for user-friendly packaging
- Good printability
- With high barrier

Convenience in packaging is becoming increasingly important to consumers. With our PP-based reclosable top webs, you can respond to this in the very best way!

Our MonoClose^{re} P-type combines the key benefits of MAP packaging without any adverse effects for manufacturers, retailers or consumers: maximum product protection thanks to a high barrier and reliable sealing as well as high transparency make for efficient and attractive packaging.

The reliable reclosure effectively prevents food waste and, in combination with a PP-based bottom tray such as our established C-base, creates a packaging solution designed for recycling.

Markets / Applications

- Fresh meat
- Cooked meats and sausages, processed meat
- Cheese
- Fish

Converting

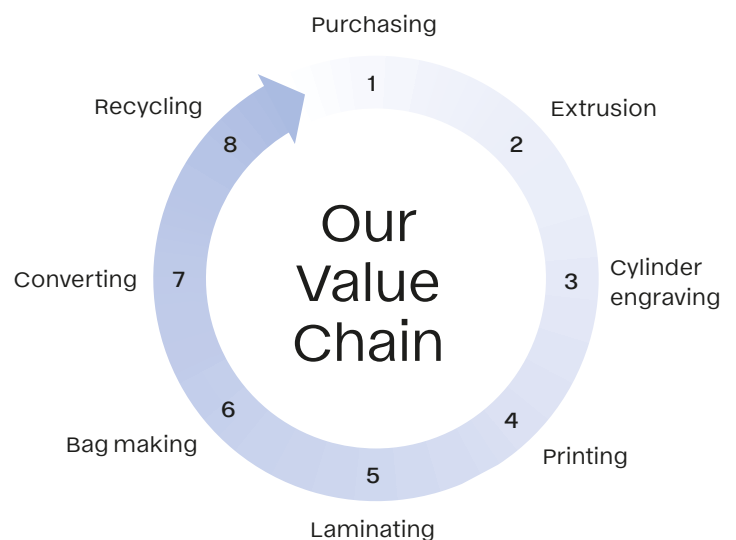

- Printable with up to 10 colours with reverse or surface options
- Diverse finishings and tactile lacquers; such as matt, glossy, PaperTouch, SoftTouch or SandTouch

Materials / Options

- Top film: PP-based, starting at 96 µm
- Bottom: preformed PP tray or injection molded PP pots
- PP sealing layer
- High barrier properties
- Lidding film optional with antifog, peel or lockseal

adapa Group is specialised in **sustainable customised packaging solutions** for the food, tobacco, hygiene and pharmaceutical industries.
