

MonoFlow^{re} P-type

Recyclability not left to chance!

- Designed for recycling
- Good processability on flowpack lines
- Fast and reliable seal
- High pack integrity

Our MonoFlow^{re} PXC is a true world star: awarded with multiple awards and certified recyclable, our high barrier flowpack solution is the ideal choice for companies which value responsibility. By switching the packaging concept to our flowpack solution, you can use up to 70% less plastic.

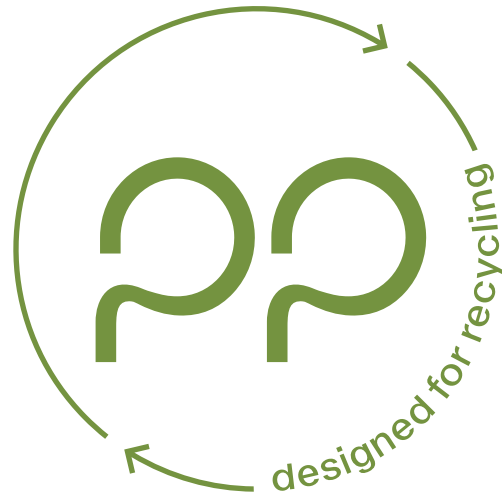

Performing well even on high speed flowpack lines, this packaging solution effectively protects the packed goods from spoiling. In addition to that, the high transparency and good printability give an appealing appearance, with a clear view on the product at the POS.

Converting

- Printable with up to 10 colors
- Surface or sandwich print possible
- Tactile lacquers possible such as:
Matt, Glossy, PaperTouch or SoftTouch
