

MonoFlow^{re} for wet-wipes

Peace of mind – for your consumers and for you!

- Reliable product protection
- PE or PP structure
Designed for recycling
- Good machine running
qualities
- Downgauging
possible

Hygiene products are all about trust in the performance of the product. Whether it's about disinfection or baby-care, your wetwipes need to perform. Our films support them in doing so!

Not only are they designed for recycling and feature the right barrier and sealing properties for your individual product but they also run smoothly on your packaging machines. On top of that, their outstanding printability makes your product shine on shelf.
