

# BreadBag

Wicketed bags for bread

- Protects your bread from losing
- Freshness enhances the shelf life
- Diverse bag-shapes possible
- High mechanical strength
- Excellent stiffness and strength of packaging

Let's be honest: bread is quite a challenge for packaging materials!

It needs to stay fresh – no mold but also no drying out – it needs to look good and sometimes films need to seal through contaminations. Our BreadBag portfolio not only performs reliably with regards to this but also boasts great optics of the film itself and its printing and a variety of shapes possible that make the packaging fit perfectly to your product.

# Markets / Applications

- Most bread types (whole, cut, toast, multigrain, ...)
- Pre-baked bakery products (diverse flavours & shapes)
- Frozen semi-finished bakery products
- Ideal also for applications where contamination in the sealing area can appear

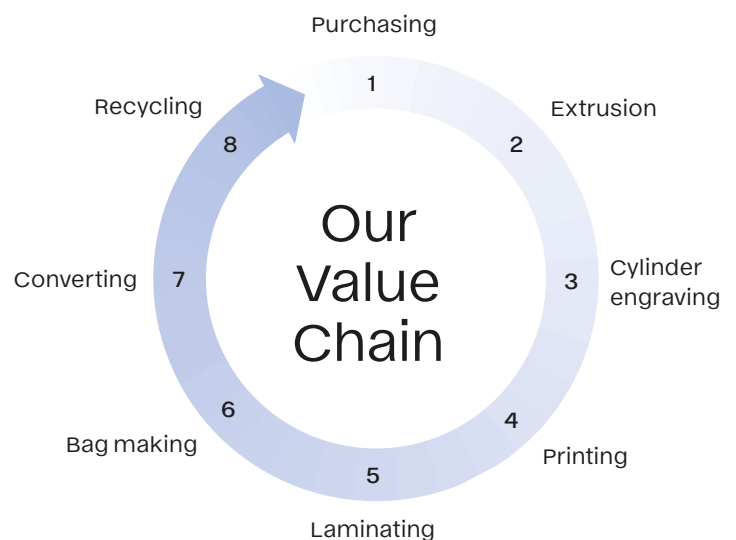

# Converting

- Flexographic printing up to 10 colours, including HD
- Possibility of matt and paper-structure lacquer

# Materials / Options

- Thicknesses from 25 to 90 µm
- Choice of barriers ensuring the required protection level
- Recyclable pure PE and PP structures available

**adapa Group** is specialised in **sustainable customised packaging solutions** for the food, tobacco, hygiene and pharmaceutical industries. The highly specialised Centres of Excellence cover the whole **integrated value chain** and enjoy technology leader status in their field. This places the company in an ideal position to be an accelerator of change for a better world and a trusted partner to its customers.
