

SAP & SAF Strip lamination

The one-of-a-kind packaging for brands!

- Premium twist packaging
- Your choice: paper or plastic strip
- Creates an unique look and haptics
- Excellent runnability and deadfold
- Suitable for single and double twist

Premium confectionery deliver a message of exclusivity, appreciation and gratification and our stripe lamination technology creates the second to none twist packaging for those. The aluminium strip or metallisation in the middle of the packaging delivers not only a superb deadfold and protects the products appropriately but is also responsible for the unique haptic. Intensify the customer experience by not only relying on visual stimuli: The premium haptics during the opening of our films communicate your product's value intuitively. Because your product deserves it!

Markets / Applications

- Premium confectionery
- Sugar and chocolate coated products
- Softchew, toffee, hard candy
- Suitable for single and double twist

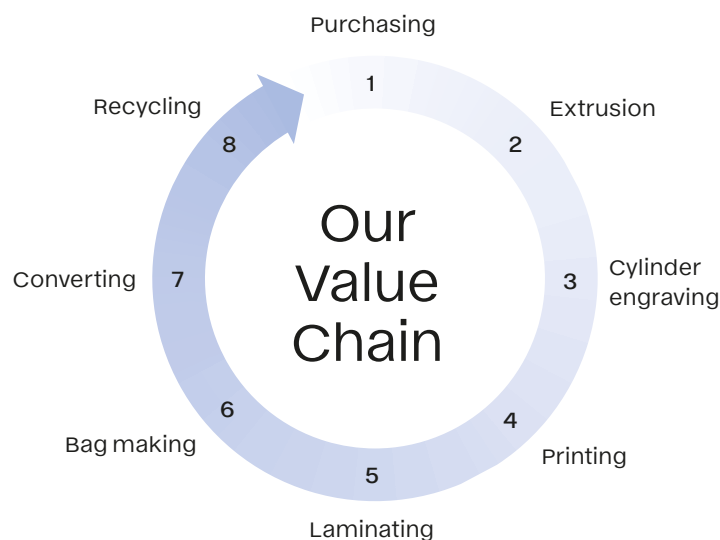

Converting

- Printable with up to 8 colours, including special effects like holograms, metallic inks or haptic varnishes

Materials / Options

- Thicknesses from 18 to 20 µm
- Applicable with paper and film:
 - Film with aluminium strip
 - Paper with aluminium strip
 - Paper with metallised paper strip
- Special paper for increased mechanical stress
